CEO and Founder,
Miriam Bogard

Every day, we're in danger of being overwhelmed by our own "stuff", as we rummage through, trying to find things we "know are there".

With 20 years in corporate negotiation and purchasing, and as a mother of two very active girls, Miriam Bogard, founder and CEO of MB Organizers, discovered a great truth: *If you're not organized, you can't be successfully productive.*

This became even clearer, when she helped her father downsize into a smaller, more suitable home after her mother passed.

Applying the lessons learned from juggling her own career, children, and a home, Miriam perfected the methods needed to stay organized.

MB Organizers, with its staff of talented professionals, is committed to providing organizational solutions and strategies for those who really want to change from being overwhelmed with "stuff" to having an organized life.

We are insured, bonded, trustworthy, and confident. Call or email us to find out how stress-free your business and home life can be.
